

9 September 2015

To whom it may concern,

I would like to express my sincere gratitude for all the help and guidance that Chris and his team from Helping Hand Group have given us this year.

We have always run our own auctions in the past but decided this year to look at something different by using a company like Helping Hand Group.

Right from the start Chris was amazing with a detailed presentation. There was a little bit of hesitation as this was our main fundraiser for the year so we wanted to get it right but Chris was available via phone or email at any time to answer any question I might have had.

We decided to go with a live and a silent auction for the night. I think the hardest part of the whole auction experience was selecting which items we were going to have as everything else was done for us. We loved that all we had to do was supply our logo and a few words and Helping Hand Group took care of the photos and all the printing.

On the night everything went amazingly well. Chris and his team set up all the items and answered any questions that our guests had.

One area that I was nervous about was the Last Donor Standing but to my sheer pleasure it was a huge hit with our guests as well as being extremely successful for us in the money department.

I can honestly say that the final amount that was raised exceeded our wildest dreams. There was nothing for us to do after the event except wait for the money as Chris and his team did all the chasing and finalising of accounts.

We will definitely use Help Hand Group again and would highly recommend other companies and especially schools to consider using it for their fundraisers and auctions.

Kind Regards,
